Thema 1x - - - -

Josephine, I wrote a little tune for you.
Just to put it in that melodic way,
not long ago, we can hear it here.

Back then, right at the start where it all began,
I combined some chords for you, not long ago,
we can hear 'm here.

And I hoped for your resonance + what I got is your resonance.

It's delightful, more than thousand thoughts full of pleasure.
It's enjoyment, too, to be with you in body + soul.

Listen, you are my sun + you are my moon.
You are a whole world to me.
It shouldn't be destined to fail
because of mistakes or errors, no.

And I hoped for your resonance + what I got is your resonance.

How could it stop?

We just headed all the way up to our lovely love.
Dajadawahhhdi, Josephine.

You are surrounded by a dazzling light. My dearest Josephine.
I trust you + hope, you don't ever let me down, as I would assure
the other way around over + over + over again.

We give each other good resonance. That's what I appreciate so
much. Oh!

To relinquish you would be the hardest thing to learn.
You are a beautiful hero to me, always telling me your truth
about what's going on.

You say: 'Dishonesty is worst'. Right, so am I.
Treat your treasure soft as possible. No lies! Treat, treat your
treasure soft as possible.

Josephine, stunning sunshine queen.

Thema **2x** - - - - Being so close to you is luck!

I hoped for your resonance + what I got is your resonance.
How could it stop? We just headed all the way up
[on]to our peak of love.

Dajadawahhhhdidi, we got what it takes, ya.

All kinds of love-spirits, they fulfill me so. Many thanks to
Josephine + to you: love-spirits.

You are surrounded by a dazzling light
- my lovely sweetheart you.

Treat your treasure soft as possible. Treat your treasure, handle
your treasure with care. Treat, treat, treat your treasure soft as
possible. Like Josephine treats me, my sunshine queen.
